PHASE THREE COMMENTS
NYS DOL APPRENT. TRAINING OFF
BUILDING #12 ROOM 459
OCTOBER 6 2010

[redacted]

I come from a family with work ethic second to NONE. We have always found a way to get a job done as well as come up with a really small fee for an opportunity at a career that will help my family have an enjoyable life, plus something my family can be proud of. This fee is minimal to screen out the people who do not take this career serious. I feel the fee should be doubled due to the fact it has not increased in 30 years to combat inflation.

Sincerely
APPRENTICE: [redacted]
