Phase three Comments

To whom it may Concern,

I recently found out about your view on the application fee for new applicants. I was once an applicant and was short on cash but still found a way to make twenty-five dollars. weather I borrowed from a friend or helped a neighbor with a deed. I guess what I am trying to say is that it is really not that hard to come up with twenty-five dollars.

The fee is directed toward candidates who are serious in persuing that career. Any "averag Joe" can pick up an Application costing the union/county/ who-ever picks up the application fee money out of the "mens pockets". That's not fair for the hard working employee's for money taken out of their checks for people not taking it seriously

Sincerely

[redacted]
