## **State Labor Department Releases Preliminary August 2020 Area Unemployment Rates**

The New York State Department of Labor today released preliminary local area unemployment rates for August 2020. Rates are calculated using methods prescribed by the U.S. Bureau of Labor Statistics. The State's area unemployment rates rely in part on the results of the Current Population Survey, which contacts approximately 3,100 households in New York State each month.

From August 2019 to August 2020, the State's private sector employment count decreased by 1,096,900. The State's seasonally adjusted private sector job count increased over the month by 96,300, or 1.4%, to 7,198,600 in August 2020. The State's private sector job count is based on a payroll survey of 18,000 New York employers, which is conducted by the U.S. Bureau of Labor Statistics. In addition, the State's seasonally adjusted unemployment rate decreased from 15.9% to 12.5% in August 2020.

\*Data are preliminary and subject to change.

*The data in the preceding table are not seasonally adjusted, which means they reflect seasonal influences (e.g., holiday and summer hires). Therefore, the most valid comparisons with this type of data are year-to-year comparisons of the same month, for example, August 2019 versus August 2020.*

See [County Unemployment Rates](#) (opens in new window) for current unemployment rates for all 62 counties in New York State.

*Labor force data for the current month are preliminary and subject to revision as more information becomes available the following month. Revised estimates for prior months are available at: [labor.ny.gov/stats/LSLAUS.shtm](http://labor.ny.gov/stats/LSLAUS.shtm).*

*Labor force statistics, including the unemployment rate, for New York and every other state are based on statistical regression models specified by the U.S. Bureau of Labor Statistics. These are the most up-to-date estimates of persons employed and unemployed by place of residence. Estimates are available for New York State, labor market regions, metropolitan areas, counties and municipalities with population of at least 25,000.*
