

New York State Minimum Wage Increase Public Outreach Webinar Series

New York State's minimum wage increased on December 31, 2016. This is the first step in the statewide \$15 minimum wage plan enacted as part of the 2016-17 State Budget.

The minimum wage increases are calculated based on where an individual works, their industry, and, in some cases, the size of their employer's business. As part of a state-wide educational campaign to help businesses identify pay rates for their employees (including tipped employees), and to help protect employees, the Department of Labor will be hosting a live webinar beginning Tuesday January, 24, 2017.

Below is the link on the Department of Labor's website for additional minimum wage information and Frequently Asked Questions (FAQs).
