However, the employer will not reimburse any workers for daily transportation cost whether commuting from inside or outside of the area of intended employment. Employer will not pay for voluntary trips back to their residence due to family emergencies, or vacations.

The amount of such transportation payment will be equal to the Worker's actual transportation costs not to exceed the most economical and reasonable common carrier transportation charges for the distance involved. In lieu of the above payments to the workers for transportation, the employer reserves the right to charter or otherwise arrange to provide for transportation at the employer's election. Subsistence reimbursement shall be \$10.73 per day, without producing documentation of actual expenses, or will otherwise be paid as per 20 CFR 655.122(h) only to those employees who are eligible under the H-2A program regulations for subsistence pay. Maximum Amount to be reimbursed with receipts is \$46.00. By way of illustration and not in limitation of the foregoing, the employer will not pay transportation for such worker if he does not have suitable documents to comply with proof of identity and employment eligibility requirements of IRCA, if he is discharged for lawful job-related reasons, if he has knowledge at the place of recruitment that he can not perform the duties of the job as described above, or if he abandons this employment when he is needed by the Grower. Employer will provide transportation and subsistence under this agreement if the worker is terminated because of work related injury caused by this/these crop activities and is so certified by a doctor acceptable to employer before leaving employers farm, or termination resulting from an Act of God which makes fulfillment of this contract impossible as provided in paragraph 9C or if the worker is displaced by a U.S. worker under DOL's 50% rule. Employer will offer free transportation for workers living in employer's housing facility both to and from the daily work site. The use of the transportation by the worker is voluntary; no worker will be required as a condition of employment to utilize the transportation offered by the employer. Workers are free to choose their own means of transportation at their own expense.

For US workers who complete the work contract and are eligible for the outbound transportation benefit, or if the employee is terminated without cause, and the worker has no immediate subsequent H2a employment, or an H2a workers that is displaced due the employers obligation under the USDOL 50% rule, the Employer will provide or pay for the worker's reasonable cost of return transportation and subsistence from the place of employment to the place from which the worker departed to work for the employer, except when the worker will not be returning to the place of recruitment due to subsequent employment with another employer. If the subsequent employer has not agreed to provide or pay for the worker's transportation to the subsequent place of employment, the Employer will provide or pay for the transportation and subsistence to the subsequent place of employment in lieu of providing or paying for such expenses from the place of employment to the place from which the worker departed to work for the employer. If the subsequent

employer has agreed to provide or pay for the worker's transportation and subsistence to the subsequent place of employment the Employer will not provide or pay for such expenses. The Employer reserves the right to arrange charter or other return transportation. Workers eligible for this benefit who do not wish to avail themselves of employer arranged return transportation would be provided their outbound transportation and subsistence by check. In those circumstances, the grower will distribute the checks as soon as all work is completed, as determined by the employer, and the worker is ready to depart. Workers may select any means of transportation home they choose, however, the reimbursement is limited to the most economical and reasonable common carrier transportation cost for the distance involved. Workers who arrange their own transportation understand they assume all liability and hold harmless the growers/association for any damages, injuries, and personal or property losses.
