BACKGROUND

The New York State Eligible Training Provider List (ETPL) was established in compliance with the Workforce Investment Act of 1998 and continues under the Workforce Innovation and Opportunity Act (WIOA). The purpose of the ETPL is to present a broad and diverse selection of training choices to support employment goals of individuals. Training providers must be listed on the ETPL in order to receive WIOA funding through an individual training account or grant (ITA/ITG).

To be listed initially on the ETPL, a training provider’s program must be evaluated and approved by a Local Workforce Development Board (LWDB). After a training provider’s program(s) have been approved for initial eligibility, the program(s) will be required to undergo an evaluation for Continued Eligibility after one year. However, at this time NYS does not have a process in place for Continued Eligibility. The guide will be updated in the future to include the process for Continued Eligibility.

The purpose of this guide is to provide general information and procedures for accessing and using the online ETPL application. This guide is not intended to provide all policies and procedures related to the certification of training programs.
**Browser Requirements**

Supported browsers include Internet Explorer 7 or greater, Mozilla Firefox, or Google Chrome. We strongly recommend that you use Google Chrome to fully utilize the site. For more information, see Frequentely Asked Questions in the Attachments.

If you are using Internet Explorer 9, 10 or 11 and are having problems, try turning on Compatibility View.

**To turn on Compatibility View**

1. See if the **Compatibility View** button appears in the Address bar. (If you don’t see the button, there’s no need to turn on Compatibility View.)

2. Tap or click the **Compatibility View** button to display the site in Compatibility View.

Once you turn on Compatibility View, Internet Explorer will automatically show that site in Compatibility View each time you visit. You can turn it off by tapping or clicking the button again or you can clear the entire list of sites using Compatibility View by deleting your browsing history.

**Before You Begin**

You will need to have or know the following:

- **Federal Employer Identification Number (FEIN) or Social Security Number (SSN)**

- **DUNS (Data Universal Numbering System) Number**
  - *The DUNS number is a unique nine-character number that identifies your organization. Your company may already have a number, and you can search their site or request a number here: [http://fedgov.dnb.com/webform](http://fedgov.dnb.com/webform). DUNS numbers are **free** and obtained from Dun and Bradstreet (D&B). You are not obligated to purchase any of D&B’s products.*

- **School License (if applicable) – Scanned and Uploaded to your Computer**

In Part 3 of the application, several forms, either required by the New York State Department of Labor (NYSDOL) and/or your LWDB, need to be printed, completed, scanned, and uploaded into the application.

The forms required by NYSDOL are:

- LWDA Eligible Training Provider Certification Assurances

- Authorized Signature
Creating Your Username and Password

- From the ETPL website (http://applications.labor.ny.gov/ETPL/) Welcome Page select Provider Log-In from the navigation bar on the left hand side. This will bring you to the Welcome Training Provider page. If you are an existing training provider, click on Already have Account to enter your Username and Password.

- If you are a new training provider, click on Create an Account. This will bring you to the New York State Directory Service (NYSDS) Self Registration page. Enter the required information including a ‘temporary’ password. All fields with an asterisk (*) must be completed. Your User ID is what you will use to log on to the ETPL and must be between 4-10 characters. After completing, click on Create Account. If your username is not unique, you will be prompted to create a different one.
You will be brought to the following screen. Enter your **Username** and temporary **Password** and click on **Sign In**.

You will be prompted to enter your **Old or Temporary Password** field, create a new password, and click on **Change Password**. Please note, passwords are case sensitive and should be typed in; not “cut and pasted.”

If the fields blank out, your new password was not accepted; and you will need to create another password.
After successfully changing your password, you will be brought to the following screen.

Click on Continue.

**I entered information but now cannot see it after logging on. Why did this happen?**

This is a key indicator that the browser is pulling a cached page.

Each time you access a web page your web browser caches (stores) it, and related files such as images and scripts, to your computer’s hard drive. This cache enables the web browsers to display frequently visited web pages faster, as the browser does not have to request the page from a remote web site. Over time, the web browser should check to see if there are any updates to the web page you are visiting, rather than pulling the old version from cache.

If this doesn't happen, you should periodically clear the cache to allow your browser to function more efficiently and retrieve updated current information from the remote web site.

**Instructions for Clearing a Web Browser's cache:**

**Mac OS X**

**Firefox:**
1. Click Firefox menu.
2. Click Preferences.
